The building

It features more than 15,000 m² divided among 7 floors and it's one of the buildings with the best amenities and attention to detail (grade-A offices) in the area.

It's a building that connects with its users and with their personal and professional growth. That's why it's been developed using the most innovative eco-efficient technologies ever applied to corporate urban development, all of which makes it eligible for **BREEM certification**.

Plus, the location provides tenants with a large variety of services: supermarkets, restaurants, nurseries, schools and a number of public and private transport options.

The Kudos Experience

Kudos makes people fall in love with the idea of going to work.

An open, flexible and interconnected community where people, technology, knowledge and activities foster professional relationships by combining interests, talent and personality.

The objective is to attract and retain talent through excellence, fostering inclusion within the community, increasing awareness for environmental and sustainability issues, guaranteeing people's wellbeing and encouraging people to look after their minds and bodies besides making it easy to achieve a balance in people's work/personal life and boosting the use of technology to keep the community connected.

To this end, Kudos offers a **Community** at all of our workspaces as a unique and differentiating value proposal, the aim of which is to create experiences in exclusive, fun and welcoming atmospheres where people connect to each other and, thus, create synergies.

Living, feeling, sharing, connecting, laughing, creating. That's what unites us and ties us to places and people.
